Professor Guido Massi is a world renowned melanoma pathologist, who has written several scientific papers as well as books on melanoma pathology. Through a number of years Dr. Massi in addition has hosted The Dermatopathology Self-Assessment Workshop in Rome, which has the status of “state of the art” in dermatopathology.

Course objective: To provide comprehensive in-depth updates on selected difficult topics pertinent to everyday practice of surgical pathologists and dermatopathologists working with melanoma diagnostics.

Tuition: Participation in the seminar is free made possible by generous sponsorships from Novartis Healthcare A/S – Oncology, Denmark and Roche a/s, Denmark.

Registration: Email to pehno@regionh.dk before May 16, 2016.
