

2nd Annual Meeting in Danish Society for Molecular Medicine (DSMOME)

Wednesday October 28th 2015

Rigshospitalet, Aud 1, Blegdamsvej 9, 2100 Copenhagen

Registration: Email to sekretariat@dsmome.dk (deadline is October 19 2015)

Fee: 100 DKK (**FREE** for members) - pay to Jyske Bank account: 7831-1439232 (**Ref: 8500+name**)

10.00 - 10.05 Welcome and overview of the day - *Prof. Torben Ørntoft*

10.05 - 12.00 International genomic initiatives

The UK 100.000 Genomes project - *Prof. Mark Caulfield, London*

Thousand Swedish Genomes - *Prof. Ulf Gyllensten, Uppsala*

The Finish Sequencing Initiative - *Ad.Prof. Hannele Laivuori, Helsinki*

The Danish genome project - *Ass. Prof. Søren Besenbacher, Aarhus*

Personalized medicine in Denmark, future plans - *Prof. Torben Ørntoft, Aarhus*

12.00 – 13.00 Lunch break

13.00 – 13.45 Bioinformatic possibilities and challenges in large genome projects - *Dir. Augusto Rendon, London*

13.45 – 16.00 Clinical utility of genomic data

Using genomic risk markers to stratify prostate cancer patients in daily clinic -
Prof. Henrik Grönberg, Stockholm

14.30 – 14.45 Coffee break

14.45 - 16.00 Clinical utility of genomic data, cont.

Chromosomal rearrangements as tool to uncover disease genes, an international sequencing based collaboration - *Prof. Nils Tommerup, Copenhagen*

Stratifying patients based on genomic alterations - *Prof. Torben Hansen, Copenhagen*

16.00 Adjourn
